RTS-M Fort Hood supported 43 Soldiers from the 1\textsuperscript{st} Armored Brigade Combat Team with the 1\textsuperscript{st} Cavalry Division in their rollover recovery operations. The Soldiers were conducting training in preparation for their NTC rotation. The RTS-M provided the MRAP for rollover and the training area. The 1\textsuperscript{st} ABCT then supplied 5 track mechanics to help the RTS-M remove and replace the track on the M1A1 Abrams.
